Product Description

S3 Delta: 12ft Drawbar Assembly for Chain Harrow

Built with precision and engineered for ease of use, S3 Delta Harrows Drawbars are the perfect partner for your harrow equipment — delivering unmatched convenience, performance, and durability in the field.

Crafted from heavy-duty tubular steel, our drawbars are tough enough to handle daily use under demanding conditions. A welded pull-bar ensures a secure and stable connection to your S3 Delta Harrows, making setup quick, easy, and worry-free.

Each drawbar comes complete with a tow chain and hardware, giving you everything you need to attach your harrows to a tractor or ATV quickly. Whether you're breaking up clods, leveling rough terrain, or preparing seedbeds, our drawbars offer the control and stability you need to achieve professional results.

With the flexibility to switch between aggressive and smoothing modes, S3 Delta Harrows Drawbars adapt easily to a wide range of land management tasks — from tackling tough soil to creating a fine, even finish.

Take your land management to the next level with the dependable performance of S3 Delta Harrows Drawbars. Invest in quality equipment you can count on — every time.
