Product Description

TYM T4058P Series 4 Compact Utility Tractor

This compact utility tractor has a high lift capacity for the hitch and optional loader, making it ideal to carry heavier loads and connect to larger attachments. With a premium operator cabin complete with joystick controls for front-end loaders and remote valves for rear attachments, it offers all the comforts you need to help you perform tasks productively.

Maneuverability and power come together in this machine, so you can take on a range of medium- to heavy-duty applications with utmost confidence. This tractor can help you manage farm animals, clear land, move material, power larger turf care projects, and so much more.
